

Joomla Training Library Index

Joomla Control Panel Intro --- An overview of the Joomla Control Panel.

Global Configuration --- Global configuration settings and how to change them.

User Manager --- This screen cast shows you how to manage your users. Includes PDF download that explains each user type in Joomla

Menu Manager --- This screen cast introduces you to the Menu Manager, but keep in mind that you may not completely understand all the options here until you watch the Creating a New Menu Item and Articles Manager Global Configuration.

Managing Your Menus --- The following screen casts will explain how to manage the different types of menu items and how to create and manage your menus. Your menu items are a critical part of a Joomla powered web site and there is some overlap between menus, menu items, modules, and the Article Manager. So keep in mind that you probably won't have a firm grasp of managing your menus until you've watched some other screen casts. But it will come together if you persevere :)

- Managing Your Menu Items #1 --- Intro to Joomla's menu system
- Managing Your Menu Items #2 --- Article Layout and Category Blog menu item
- Managing Your Menu Items #3 --- Creating menu items for components and external links.

Front Page Manager --- How to format your front page and add Articles to Front page.

Media Manager --- Manage and upload images.

Trash Manager and Tools --- Menu and Article Trash Manager, Mail, Global Checkin, Cache Clear.

Joomla Structure (Sections/Categories/Articles) --- An overview of Joomla's structure.

Includes PDF document that gives you a visual mapping of Joomla's structure and will be a useful reference for you.

Creating Sections and Categories

Articles Manager Global Configuration

Managing Your Articles

- Creating a new article
- Styling the text in your article --- Joomla's text editor
- Read more
- Anchors
- Links and images --- Also see the General Task Library to learn how to easily re-size your

images before uploading them.

- Setting parameters for individual article

- Installing Extensions
- Managing modules

Template Manager

Help, System Info

Installing Joomla using Cpanel

Putting it all together

These screen casts bring together related tasks. You will see several of the individual tasks that you learned in previous screen casts, but you will see them related to how they work with other tasks.

- Articles/Modules/Module Positions/Menu Items
- Articles/Images/Media Manager --- Resizing images after you've added to an article
- Joomla Maintenance
- Recommended Plugins
